

聖書 ヘブル語の音韻規則

津村俊夫

ABSTRACT D.T. Tsumura, “Phonological Rules of Biblical Hebrew.” It is important in studying Biblical Hebrew not only to understand the phonological rules but also to apply those rules to an actual text such as Psalm 2. For that purpose one should grasp systematically the relationships between the Hebrew writing system and its phonology. Only after having mastered these rules one can explain grammatical features of Hebrew forms adequately.
